

# ICE900

This point-of-use system delivers crystal clear ice from pure water. Combining technology, design and convenience, you get water purification and ice-making capability from a single source. Reverse Osmosis technology provides great tasting, pure water, so you can also get great tasting beverages and ice.

- Touch Button Controlled
- Hot, Cold and Ambient Water
- Hot Water/Ice Locking function with touch sensor
- Features Reverse Osmosis Filtration
- Single spout delivery of cold, hot or ambient water
- Single-touch continuous dispensing
- Produces 44 lbs. of ice per day
- Modern Streamlined Design
- Leak Detector

Technical Features:

Capacities

Hot Tank: 1.4 gal

Cold Tank: 1.0 gal

Ice Storage: 8.8lbs

Ice Production: 44lbs

Dimensions: 14.71W x 17.91D X 56.06H
